Results of April 26, 2025 White/Hybrid Bass Tournament

Our Catch For a Cause II White/Hybrid Tournament was a huge success thanks to Paul Francis who exceeded everyone's expectations; Four hundred Thirty (430) White Bass were harvested at 675 pounds, or on average 1.57lbs/fish; Three Hybrids were also harvested at about 7lbs apiece. The *Other Side* recovery ministry cleaned and prepared the fish which will be donated to local food banks; a total of 54 boats participated; folks with your help we are helping to balance our fishery.

We have some great Topics and Speakers in the next few months. Monthly Meetings are held at *Fairfield Bay Conference Center*, 110 Lost Creek Parkway, Fairfield Bay, AR.

GFWC Members Share Their Walleye Skills

Take Note. This is a one-time change from the Third Monday in the month to the Fourth Monday of July. This will be an extremely helpful meeting as some of the GFWC Walleye Fishermen share what works for them to catch Walleyes.

GFWC Monthly Meeting, August 18, 6:30PM

Joe Chilton-AGFC Greers Ferry Lake Biologist

Joe will be sharing on Greers Ferry Lake Fish Survey Results and other information.

Well, it is Fishing, not Catching, but...This will help get a Walleye in the boat.

Fishing for Walleye in Greers Ferry Lake often requires slow presentations; use a 3oz bottom bouncer and attach a two-hook worm harness with a small spinner. Slow your troll to .5mph to .7mph and wait for the walleye to gently

bite many times. They do not strike but hang up. Use their weight to gently sweep your rod up to set the hook and reel in slowly.
